

## **RENOVATING THE PARKWAY AT 3349 CAHUENGA BLVD WEST**

As part of the CPPOA's ongoing efforts to rejuvenate our Cahuenga Pass neighborhood, we joined with our business district to beautify our main street's parkways. Many of our businesses responded with new drought-tolerant flowers, bushes and grasses, and re-doubled their efforts to clean up trash and remove graffiti.

We offered to help the business owner at 3349 Cahuenga Blvd West, so in 2013 the City Council office obtained two pink tabebuia trees (our Specific Plan's approved street tree), CPPOA funded and provided the smaller plants and grass, and the Los Angeles Beautification Team (LABT) planted everything for us. Many thanks to CD4 Field Deputy Alice Roth and LABT's Sharyn Romano and her staff for their help!
